Contents

F. Alsarari

A note on convolution of Janowski type functions with q -derivative.....1

S. Alvarez-Andrade, S. Bouzebda, N. Nessigha

On the strong approximation of the non-overlapping k -spacings process with application to the moment convergence rates 12

A. Asrari, B. Tolue

Some new results on the prime order Cayley graph of given groups35

H. G. Debela, G. F. Duressa

Parametric uniform numerical method for singularly perturbed differential equations having both small and large delay 54

S. S. Dragomir

Pre-Schur convex functions and some integral inequalities on domains from plane70

M. El Ouaarabi

On a new $p(x)$ -Kirchhoff type problems with $p(x)$ -Laplacian-like operators and Neumann boundary conditions 91

B. A. Frasin

Subclass of analytic functions with negative coefficients related with Miller-Ross-type Poisson distribution series109

J. Szirmai

On Menelaus' and Ceva's theorems in Nil geometry 123

L. Tóth

Proofs, generalizations and analogs of Menon's identity:

a survey 142

A. K. Wanas, L.-I. Cotîrlă

New family of bi-univalent functions with respect to symmetric

conjugate points associated with Borel distribution 198
