Contents

<i>A. Belhadj, A. Kandouci, A. A. Bouchentouf</i> An anticipating stochastic integral with respect to mixed fractional Brownian motion	205
<i>K. Dammak, M. Hbaib</i> On stammering p-adic Ruban continued fractions	219
<i>M. Hamidi, A. Mosayebi-Dorcheh, R. Ameri</i> On auto-nilpotent polygroups	232
<i>D. Kumar, F. Y. Ayant</i> A unified study of the Fourier series involving the Aleph-function of two variables	249
<i>B. Malešević, B. Mihailović, M. Nenezić Jović, M. Mićović, L. Milinković</i> Some generalisations and minimax approximants of D'Aurizio trigonometric inequalities	263
<i>A. K. Singh, Koti N. V. V. Vara Prasad</i> A Generalized (ψ, φ)- weak contraction in metric spaces	278
<i>G. M. Sofi, W. M. Shah</i> Inequalities for rational functions with poles in the Half plane	294
<i>B. Senoussi</i> Affine factorable surfaces of finite type in the 3-dimensional Euclidean $\mathbb{E}^3$ and Lorentzian $\mathbb{L}^3$ spaces	309
