Contents

Cs. Albert, S. Gombos, R. V. Salamon, J. Prokisch, J. Csapó

Production of highly nutritious functional food with the supplementation of wheat flour with lysine 5

J. Prokisch, Z. Csiki, Cs. Albert, J. Csapó

Production of high-lysine-content biscuit and examination of the absorption of lysine in humans.....21

J. Csapó, N. Schobert

Production of a high-nutritional-value functional food, the Update1 bread, with the supplementation of the wheat flour with high-protein-content raw food materials.....36

F. Garousi

Toxicity of selenium, application of selenium in fertilizers, selenium treatment of seeds, and selenium in edible parts of plants 61

F. Garousi

The essentiality of selenium for humans, animals, and plants, and the role of selenium in plant metabolism and physiology 75

F. Garousi

Selenium the soil–plant–food systems 91

Sz. Jevcsák, E. Murányi, L. Stündl, J. Jóvér, P. Sipos

Effect of different levels of nitrogen on the total polyphenol and total flavonoid content of sorghum and millet flours.....107

D. Furulyás, F. Nyéki, M. Stéger-Máté, É. Stefanovits-Bányai, Sz. Bánvölgyi

Effects of pectolytic enzyme treatment and microfiltration on antioxidant components of elderberry juice.....116

J. Csapó, Cs. Albert, J. Prokisch

The role of vitamins in the diet of the elderly. I. Fat-soluble vitamins 127

J. Csapó, Cs. Albert, J. Prokisch

The role of vitamins in the diet of the elderly. II. Water-soluble vitamins.....146
