

Acta Universitatis Sapientiae

Informatica

Volume 4, Number 2, 2012

Sapientia Hungarian University of Transylvania
Scientia Publishing House

Contents

<i>A. Miller, P. Prosser</i>	
Diamond-free degree sequences	189
<i>S. Szabó</i>	
The complexity of an exotic edge coloring of graphs	201
<i>M. Peczarski</i>	
Towards optimal sorting of 16 elements	215
<i>Z. Kása, Z. Kátai</i>	
Scattered subwords and composition of naturals	225
<i>N. Gaskó, M. Suciu, R. I. Lung, D. Dumitrescu</i>	
Pareto-optimal Nash equilibrium detection using an evolutionary approach	237
<i>T. Gregorics</i>	
Abstract levels of programming theorems	247
<i>A. Iványi, L. Lucz, T. Matuszka, S. Pirzada</i>	
Parallel enumeration of degree sequences of simple graphs	260
<i>Book review</i>	
S. Pirzada: An introduction to graph theory	289
