Contents

<i>András London, József Németh, Tamás Németh, Áron Pelyhe</i>	
A new model for the linear 1-dimensional online clustering problem	163
<i>Ismail Sahul Hamid, Mayamma Joseph</i>	
Induced label graphoidal graphs	178
<i>Tibor Gregorics</i>	
Remarks on the A^{**} algorithm	190
<i>Dömötör Pálvölgyi</i>	
Partitioning to three matchings of given size is NP-complete for bipartite graphs	206
<i>Antal Iványi</i>	
Reconstruction of score sets	210
<i>Ágnes Fülöp</i>	
Statistical complexity and generalized number system	230
<i>Bilal A. Chat, Shariefuddin Pirzada, Antal Iványi</i>	
Recognition of split-graphic sequences	252
<i>Zsolt T. Kardkovács, Gábor Kovács</i>	
Finding sequential patterns with TF-IDF metrics in health-care databases	287
