Contents

<i>S. K. Narasimhamurthy, S. T. Avesh, P. Kumar</i> On ν-curvature tensor of C3-like conformal Finsler space	101
<i>I. I. Mezei</i> Multiple radially symmetric solutions for a quasilinear eigenvalue problem	109
<i>A. Iványi</i> Density of safe matrices	121
<i>A. Bege</i> Generalized Möbius-type functions and special set of k-free numbers	143
<i>L. Guran, A. Petruşel</i> Existence and data dependence for multivalued weakly Ćirić-contractive operators	151
<i>O. Khadir, L. Szalay</i> Experimental results on probable primality	161
<i>L. Lócsi</i> Approximating poles of complex rational functions	169
<i>J. Sándor, L. I. Kovács</i> On perfect numbers connected with the composition of arithmetic functions	183
<i>J. Salamon</i> Closedness of the solution mapping to parametric vector equilibrium problems	193
