

Acta Universitatis Sapientiae

Mathematica

Volume 2, Number 1, 2010

Sapientia Hungarian University of Transylvania
Scientia Publishing House

Contents

I. Marchis

Asymptotic behavior of the solution of quasilinear parametric variational inequalities in a beam with a thin neck.....5

B. Belaïdi

Oscillation of fast growing solutions of linear differential equations in the unit disc 25

S. Kovács

Global dynamics of a HIV transmission model 39

A. Iványi

Reconstruction of complete interval tournaments. II. 47

A. Pethő

Fifteen problems in number theory 72

J. Sándor

A note on logarithmically completely monotonic ratios of certain mean values 84

J. Bukor, F. Filip

Sets with prescribed lower and upper weighted densities 92

F. Filip, J. Šustek

An elementary proof that almost all real numbers are normal .. 99

M. Turgut, A.T. Ali

Some characterizations of special curves in the Euclidean space $\mathbf{E}^4$ 111
