Scientia Publishing House

Contents

<i>I. Kátai</i>	
On the distribution of q-additive functions under some conditions III	115
<i>J. Bukor, P. Csiba</i>	
Notes on functions preserving density	129
<i>I. Simon</i>	
Malmquist-Takenaka functions on local fields	135
<i>A. Bege</i>	
Hadamard product of GCUD matrices	144
<i>G. Murugusundaramoorthy</i>	
Multivalent β-uniformly starlike functions involving the Hurwitz-Lerch Zeta function	152
<i>F. Soleymani</i>	
On a new class of optimal eighth-order derivative-free methods	169
<i>A. Banerjee, P. Sahoo</i>	
Uniqueness and weighted value sharing of differential polynomials of meromorphic functions	181
<i>A. T. Ademola, P. O. Arawomo</i>	
Asymptotic behaviour of solutions of third order nonlinear differential equations	197
<i>S. K. Hui, M. Atceken</i>	
Contact warped product semi-slant submanifolds of $(LCS)_n$-manifolds	212
Contents of volume 3, 2011	225
