Volume 4, Number 2, 2012

Sapientia Hungarian University of Transylvania
Scientia Publishing House

Contents

J. Gonda

Metric on the hyper-octahedral group: the minimal deviation 109

K. Raj, S. K. Sharma, A. Gupta

Some multiplier lacunary sequence spaces defined by a sequence of modulus functions 117

T. K. Samanta, S. Mohanta

Common fixed point theorems for single and set-valued maps in non-Archimedean fuzzy metric spaces 132

J. Sándor, R. Oláh-Gál

On Cusa-Huygens type trigonometric and hyperbolic inequalities..... 145

G. S. Srivastava, A. Sharma

Spaces of entire functions represented by vector valued Dirichlet series of slow growth..... 154

A. B. Singh, V. N. Dixit

Unification of extensions of zip rings 168

M. Atçeken, S. Dırık

On contact CR-submanifolds of Kenmotsu manifolds 182

R. Szász

Improvement of some results concerning starlikeness and convexity 199
