

Acta Universitatis Sapientiae

Mathematica

Volume 9, Number 2, 2017

Sapientia Hungarian University of Transylvania
Scientia Publishing House

Contents

<i>M. Crasmareanu</i> Para-mixed linear spaces	275
<i>O. Engel, A. R. S. Juma</i> The sharp version of a strongly starlikeness condition	283
<i>P. A. Kupán, Gy. Márton, R. Szász</i> A result regarding monotonicity of the Gamma function.....	291
<i>J. P. Mavoungou</i> Extensional quotient coalgebras	303
<i>H. R. Moradi, M. E. Omidvar, S. S. Dragomir, M. S. Khan</i> Sesquilinear version of numerical range and numerical radius ..	324
<i>L. Németh</i> Fibonacci words in hyperbolic Pascal triangles.....	336
<i>F. Qi, B. -N. Guo</i> An explicit formula for derivative polynomials of the tangent function	348
<i>Á. Szász</i> A natural Galois connection between generalized norms and metrics	360
<i>E. Székely</i> Does another Euclidean plane exist other than the parasphere?	374
<i>H. P. Waghmare, V. Husna</i> Uniqueness of polynomial and differential monomial.....	377
Contents of volume 9, 2017	391
